We're Long Term Care Workers- We Take Care of Everyone!

With public participation in this petition will help us apply pressure on Extencicare. When we present the petition to our employer, we can emphasize that they play a key role in addressing these issues. Many of these challenges can be addressed through bargaining as we push for better conditions for our members and residents.

The key issues in our sector, which the petition highlights, include:

- **Short-staffing:** An inadequate number of workers means work loads increase.
- **Resident care quality:** without enough workers on site, patients receive less attention than they should.
- **Retention and recruitment:** many workers are entertaining leaving for other work sites or other careers.
- **Burnout:** those who stay are expected to deal with higher workloads.
- **Inadequate pay:** our wages are not keeping up with inflation while our workloads increase.
